

Now that school is back up and running...

Homework Help Tutoring Program available for Students in Grades K-12!

Homework Help is a **FREE** tutoring program offered by the Concurrent Education Student Association of Brock University. We are a group of volunteers from Brock University available to tutor students from grades K-12 to help with school work, revision, etc. This year, we will be running the program virtually over Zoom every Wednesday from 6:30-8:30pm!

Students/parents will need to **email** to sign up and then **join** our weekly meeting on **Zoom** to be connected with one of our tutors. Here is where the magic happens - students are able to receive help that betters their understanding in order to grow in the classroom! Our tutors are all very knowledgeable in their fields and many are future teachers! We are excited and enthusiastic in helping students with their homework; we recognize the challenges and are eager to help!

With the current climate of our world and with education moving more virtually than ever, we recognize the additional challenges for students and families alike. We hope to support families in their online learning and offer extra support to students who may need it!

Please email us at events@brockconed.com to reserve your spot for any given week and ask any further questions!
